WHY RESTORE AND INVEST?

- * *Key to Economic Investment in Local Communities*
- * *Source of Workforce Development Opportunities*
- * *Supporters of Pennsylvanians in Their Own Communities*

A KEY TO ECONOMIC INVESTMENT IN LOCAL COMMUNITIES

“Every dollar a state spends on Medicaid pulls new federal dollars into the state – dollars that would not otherwise flow into the state. These new dollars pass from one person to another in successive rounds of spending... Economists call this “the multiplier effect.” (Families USA, January 2003) Community MH/MR funds are reinvested over and over again in the local economy through wages and purchases of supplies and services in the private sector.

A SOURCE OF WORKFORCE DEVELOPMENT OPPORTUNITIES

Thousands of employment opportunities exist in community MH/MR services and supports. State and federal funding can create a stable and qualified workforce – the key to quality.

SUPPORTERS OF PENNSYLVANIANS IN THEIR OWN COMMUNITIES

Community-based MH/MR services and supports offer lifelong supports and opportunities for a meaningful quality of life, in fulfillment of Pennsylvania and Federal laws.

FAILURE TO FUND NOW WILL COST MORE IN THE FUTURE

It will severely diminish a longstanding partnership between the Commonwealth, counties and private businesses that provides community-based services and supports and will shift responsibility to other, overburdened government agencies.
